Initial Model Training Code, Model Validation and Evaluation Report

The initial model training code will be showcased in the future through a screenshot. The model validation and evaluation report will include a summary and training and validation performance metrics for multiple models, presented through respective screenshots.

Initial Model Training Code (5 marks):

Linear regression:

```
] : lr=LinearRegression()  
    lr.fit(xtrain,ytrain)  
    ypred=lr.predict(xtest)  
    print(ypred)
```

Decision Tree:

```
dt=DecisionTreeRegressor()  
dt.fit(xtrain,ytrain)  
ypred=dt.predict(xtest)  
print(ypred)
```

Random Forest Regressor

```
rf=RandomForestRegressor()  
rf.fit(xtrain,ytrain)  
ypred=rf.predict(xtest)  
print(ypred)
```

Model Validation and Evaluation Report (5 marks):
